

WHEELED LOADING SHOVEL | RANGE

# **BUILDING THE ULTIMATE RANGE.**

Ever since JCB was founded by Joseph Cyril Bamford in a small garage in Staffordshire in 1945, innovation has driven our machines and our thinking. Of course we've grown since then - to employ over 10,000 people across 4 continents - but innovation remains at the heart of everything we do.

### A history of innovation

We've been innovating since day one, and we've always cultivated a uniquely fearless approach to design. Indeed, we've invented whole new genres of machinery - the backhoe loader and the telehandler for example – and revolutionised others like the tractor or skid steer loader.

### The best backup in the business

A key component of any JCB machine is peerless backup and support: our 2,000-strong global dealership and service network keeps the customer at the centre of everything we do, in over 150 countries worldwide. Our World Parts Centre, meanwhile, aims to deliver anywhere on earth within 24 hours.

### Success by the million

Every JCB is designed and built to offer ultimate productivity, durability, efficiency, safety, comfort and reliability, so it's perhaps not surprising that we've just built our millionth machine. As you'd expect from such an innovative company though, we won't be resting on our laurels.

# **403** WHEELED LOADING SHOVEL.

I. Made to move The JCB 403 is a compact, manoeuvrable and versatile machine, boasting a 15km/h top speed.

**2. Powerful engine** Much of this machine's speedy on-site performance is courtesy of a lively 28kW engine.

6. Rental and construction

Compact dimensions, manoeuvrability and tremendous strength make this model ideal for the tough worlds of rental and construction.

# 5. Hydrostatic drive

Hydrostatic drive technology makes operation easy; individual hydraulic motors on each wheel allow for good ground clearance and protection.

Add a large selection of attachments - such as shovels, pallet forks or muck fork and grab.

		403
Operating weight range	kg	2078 - 2115
Maximum gross engine power	kW (hp)	28 (37.5)
Shovel capacity	m <sup>3</sup>	0.3
Full turn tipping load range	kg	678 - 838
Payload range	kg	339 - 419
Maximum breakout force	kN	20.5
Load over height	mm	2634 - 2878

# 406/407/409 WHEELED LOADING SHOVEL.

### 3. Giving great service

Servicing is easy thanks to wide opening bonnets; long service intervals; virtually maintenance-free brakes; and easily accessible components.

**2. Lifting capacity: 409** With the standard Im<sup>3</sup> bucket there's a 4,583kg straight tipping load (3,648kg at full turn). With optional pallet forks there's still a 3737kg capacity.

**I. Lifting capacity: 406** The smaller 406 has an impressive 3250kg full turn tipping load with its standard 0.8m<sup>3</sup> bucket. **4. Engine performance** A Tier 4 final / Stage IV-compliant JCB Diesel engine by Kohler without a DPF. Gives maximum uptime and no wasted engine power.

**5. Innovative transmission** All-wheel-drive hydrostatic transmission provides good traction in all conditions, as well as reduced tyre wear and lower running costs. 6. On the road

409

The powerful JCB 409 offers 20km/h roading speed, with an optional 40km/h upgrade for even more speed and productivity.

#### 406/407/409 WHEELED LOADING SHOVEL

		406	407	409
Operating weight range	kg	4873 - 5020	5063 - 5210	5927 - 6031

# **411/417 WHEELED LOADING SHOVEL.**

### I. Redesigned cab

Our refreshed 3m<sup>3</sup> cab comes with an adjustable steering column, a modern central dash display, colour LCD screen and much more.

**2. EcoMAX productivity** The 4.4-litre EcoMAX engine in the JCB 411/417 delivers plenty of power and torque, and also boasts a variable geometry turbo. **4. Clearly better** Visibility on these machines is excellent all-round, which helps to boost productivity, operator comfort and safety.

# **5. Always in control** For optimum productivity, there are three control systems including our new joystick and electro-hydraulic proportional auxiliary control.

# **3. More for your money** With super-efficient features like high back-off brakes and electronically managed clutch cut-off, you'll enjoy superior efficiency.

# **6. Well-articulated** A heavy-duty box section design with precisionmachined pins/bushes and twin taper roller bearings make the articulation joint extremely strong.

WHEELED LOADING SHOVEL RANGE

-

The 411 and 417 have a range of seat options: mechanical or air seat options: mechanical or air suspension, vinyl or fabric bases, or even our Actimo XXL option. It's heated with air suspension, lumbar support, armrests, backrest extension and a headrest, all with full adjustment.

		4II HT	417 HT	417 HT HL	417 HT SHL
Operating weight range	kg	8621 - 8931	9390 - 9600	9455 - 9700	9995 - 10,540

# **427/437 WHEELED LOADING SHOVEL.**

I. Big performers

models) arrives at low revs.

The Cummins QSB 6.7 litre engine produces massive

power (158 or 173hp). Peak torque (801Nm on both

The engine meets Tier 4i/Stage 3B regulations without after-treatments like SCRs or DPFs. One advantage of this is reduced servicing costs.

### 2. Higher productivity

For high-up applications like hopper and lorry loading, opt for a high-lift (427 and 437) or super-high-lift (437 only) HT arm.

# 3. Loads of benefits

Choose your ideal loader arm: Z-bar linkage (ZX) produces huge breakout, while high torque (HT) excels in parallel lift and multi-attachment use.

### 4. Premium transmission

Optional torque lock-up 5-speed transmission provides 100% efficiency in 2nd to 5th gears, improving fuel consumption.

### 6. Stopping power

JCB's wheel-speed braking technology reduces heat, drag and fuel consumption because the brakes rotate at the same speed as the wheels.

### 427/437 WHEELED LOADING SHOVEL

Air conditioning and climate control options.

# **457 WHEELED LOADING SHOVEL.**

I. Built to last

We use state-of-the-art manufacturing processes like robot machining, precision paint technology and innovative assembly techniques. 2. JCB CommandPlus Cab

The ultimate in operator comfort and productivity. Unrivalled visibility, command driving position and seat mounted controls keep you in total command. **5. New generation not regeneration** The engine meets Tier 4/Stage IV regulations without the requirement for a costly and complex DPF. One advantage of this is reduced servicing costs.

**3. Low maintenance braking** Because the braking system uses a hydraulic dual circuit design with oil-immersed discs, it has a virtually maintenance-free lifespan. **4. Optimum performance** Our optional close-ratio 5-speed gearbox improves acceleration, hill climbing and roading. The lock-up element improves cycle times and efficiency even more. 6. The ultimate engine

A MTU 7.7 litre engine 193kW(258hp) is fitted to the 457; expect 4% more power and up to 16% efficiency gains than outgoing model 186kW(250hp)

# LIVELINK, WORK SMARTER.

LIVELINK IS AN INNOVATIVE SOFTWARE SYSTEM THAT LETS YOU MANAGE JCB MACHINES REMOTELY – ONLINE, BY EMAIL OR BY MOBILE PHONE. ACCESS EVERYTHING FROM MACHINE ALERTS TO FUEL REPORTS AND HISTORY INFORMATION, WITH ALL DATA STORED AT A SECURE CENTRE.

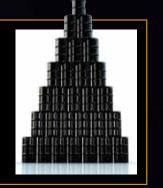

# Maintenance benefits

Manage machine maintenance easily – accurate hours monitoring and service alerts improve maintenance planning, while real-time location data helps you manage your fleet. Critical machine alerts and maintenance history records are also available.

# **Productivity and cost benefits**

By providing information like idle time monitoring and machine fuel consumption, JCB Livelink helps reduce your fuel usage, saving money and improving productivity. Machine location information can help improve efficiency and perhaps even reduce insurance costs.

# **Security benefits**

Livelink's real-time geofencing alerts tell you when machines move out of predetermined zones, and real-time curfew alerts inform you of unauthorised usage. Further benefits include real-time location information.

VALUE ADDED

# VALUE ADDED.

JCB'S WORLDWIDE CUSTOMER SUPPORT IS FIRST CLASS. WHATEVER YOU NEED AND WHEREVER YOU ARE, WE'LL BE AVAILABLE QUICKLY AND EFFICIENTLY TO HELP MAKE SURE YOUR MACHINERY IS PERFORMING TO ITS FULL POTENTIAL.

• Our Technical Support Service provides instant access to factory expertise, day or night, while our Finance and Insurance teams are always on hand to provide fast, flexible, competitive quotes.

The global network of JCB Parts Centres is another model of efficiency; with 16 regional bases, we can deliver around 95% of all parts anywhere in the world within 24 hours. Our genuine JCB parts are designed to work in perfect harmony with your machine for optimum performance and productivity. JCB Assetcare offers comprehensive extended warranties and service agreements, as well as service-only or repair and maintenance contracts. Irrespective of what you opt for, our maintenance teams around the world charge competitive labour rates, and offer non-obligation quotations as well as fast, efficient insurance repair work.
