

TRACK EVERYTHING WITH THE LIVELINK ASSET TAG

JCB LIVELINK ASSET TAG

The LiveLink Asset Tag gives you more visibility and control over your assets than ever before. With a long-lasting battery, IP69K rating and easy, wire free installation, you can start tracking all your assets instantly. The Asset Tag utilises the latest Bluetooth 5.0 technology to track the location of any small to medium machines, as well as non-powered assets, attachments, and accessories. With direct integration into JCB LiveLink, you can now monitor everything in one place.

What will you start tracking?

CONNECT EVERYTHING

Increased visibility and control of all your assets regardless of size, function, and brand.

LIVELINK INTEGRATION

Connects seamlessly into LiveLink where everything can be viewed together in one place, for a full fleet/asset management solution.

QUICK & EASY INSTALLATION

No wiring required so ideal for non-powered assets.

5.0

UP TO 800M BLUETOOTH RANGE

Utilising the latest Bluetooth Low Energy 5.0 technology to ensure all your assets can be tracked.

IP69K RATED

Strong & durable design, to match the rugged outdoor and industrial use of your equipment.

DISCREET, COMPACT & LIGHT WEIGHT

Discreetly attach to a breadth of different applications, regardless of asset size.

4 YEAR BATTERY LIFE

Long lasting self-contained unit designed for non-powered assets and long-term peace of mind.
